SUMMARY

Adaptive and creative individual who utilizes a strong technical background in tandem with great collaborative and communicative skills to bring a unique and beneficial perspective to any team.

WORK

Cook
Vic's Pizzeria
July 2018 - Present

Cooked pizza orders and pizza by-the-slice in a team of two and managed the pizza ovens to ensure quality food, timely orders, and customer satisfaction, all in a fast-paced environment. Additionally, resolved customer complaints.

Floor Manager
Joe Chocolates
January - June 2018

Prepared, packaged, and labeled chocolate and shipments as well as communicated directly with executives about stock and inventory in an early-stage startup environment

Web Developer
University of Washington
December 2016 - May 2017

Used d3.js to take research data and make an interactive visual aid for the environmental science web portal visitors to explore

Web Developer
IMS Health
June - September 2016

Used d3.js and React.js to create charting components for internal business intelligence dashboards. Also helped to migrate existing website onto the React.js framework
